**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing

information collection requirements in accordance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Paragraph (a)(2) of the Material Hoists, Personnel Hoists, and Elevators Standard requires that the rated load capacities, recommended operating speeds, and special hazard warnings or instructions be posted on cars and platforms. Paragraph (b)(1)(i) requires that operating rules for material hoists be established and posted at the operator's station of the hoist. These rules shall include signal system and allowable line speed for various loads. Paragraph (c)(10) requires that cars be provided with a capacity and data plate secured in a conspicuous place on the car or crosshead.

These posting requirements are used by the operator and crew of the material and personnel hoists to determine how to use the specific machine and how much it will be able to lift as assembled in one or a number of particular configurations. If not properly used, the machine would be subject to failures, endangering the workers in the immediate vicinity.

Paragraph (c)(15) requires that a test and inspection of all functions and safety devices be made following the assembly and erection of hoists. The test and inspection

are to be conducted under the supervision of a competent person. A similar inspection and test is required following major alteration of an existing installation. All hoists shall be inspected and tested at three-month intervals. A certification record (the most recent) of the test and inspection must be kept on file, including the date the test and inspection was completed, the identification of the equipment and the signature of the person who performed the test and inspection. This certification ensures that the equipment has been tested and is in safe operating condition. The most recent certification record will be disclosed to a Compliance Safety and Health Officer during an OSHA inspection.

## **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

## **III. Proposed Actions**

OSHA is requesting that OMB extend the approval of the collection of information (paperwork) requirements contained in the Material Hoists, Personnel Hoists, and Elevators; Posting Requirements. The agency requests an adjustment increase of 1,943 burden hours (from 8,104 hours to 10,047 burden hours).

*Type of Review:* Extension of a currently approved collection.

#### **IV. Public Participation — Submission of Comments on this Notice and Internet**

##### **Access to Comments and Submissions**

You may submit comments in response to this document as follows: (1) electronically at <http://www.regulations.gov>, which is the Federal e-Rulemaking Portal; (2) by facsimile; or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number for this ICR (Docket No. OSHA-2010-0052). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled “**ADDRESSES**”). The additional materials must

clearly identify your electronic comments by your name, date, and the docket number so the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as your social security number and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.
